

iPAD Policy

At the beginning of the Autumn Term, the school will provide all new starters joining the Senior School with access to an Apple iPad Air as a personal digital device. Pupils will be able to retain the iPad assigned to them until the end of their time in school. The school will also provide students with access to digital study resources and tools that can be used both in and out of school, as well as providing a managed wireless infrastructure for internet access. We suggest that your daughter provides a pair of earphones for use with the device in order to enhance the experience.

We understand that accidents do happen and the school will pay for repair to the device following accidental damage on one occasion. Payment for any further repairs will be decided on an individual basis.
